- Precise, flexible and easy-to-use, Patriot Properties' AssessPro is one of the most comprehensive Computer Assisted Mass Appraisal (CAMA) property assessment tools on the market today.
Full real and personal property modules, hundreds of standard and user-defined reports, document and photograph storage, and SketchPro, Patriot's integrated cutting-edge graphical sketching tool are just some of reasons why AssessPro is the Number One choice among assessors nation-wide.

"After using one software vendor for more than 20 years, it was time to look around. Pontem recommended Patriot converted my data and calculated the precise values for my March 2010 assessment roll. Wow! Thank you, Patriot and Pontem — for providing such top-notch products and unbelievable support!" — Elizabeth H. Keller, CMAE III, Assessor, City of Escanaba
