- User customized tabs for frequently used reports
- Simple integration with your community's GIS maps
- Custom tailored to work with your state's requirements.

Expand your system's power

- Image/Document Management Add-on
- Online Property Tax Search Service

As you know, about 9 years ago we began using Pontem's Tax Administration software and are also using your services for hosting our property tax web site. (Can it really be that long?) I want to thank you and the Pontem staff for making this working relationship so positive and easy. I appreciate the knowledge and endless patience of every person who has helped me over these years. No problem has been too big or too small to merit personal attention. Calm, soothing software gurus. And, with all this great service. There are still no hidden fees or surprise costs. Updates and technical assistance are included in our annual support fee. Pontem is an example of how more companies should do business. Thank you!

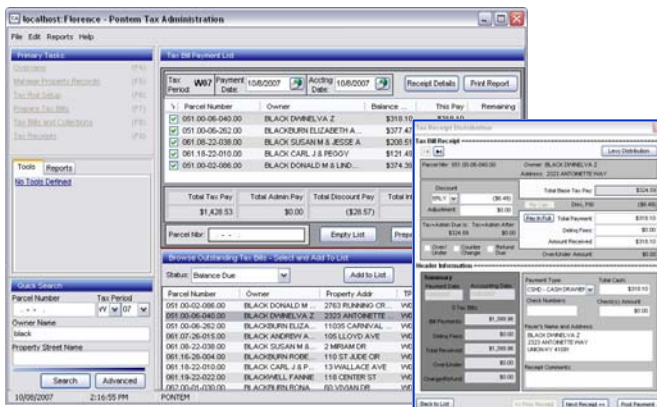

Elizabeth H. Keller, CMAE III
City of Escanaba Assessor

Maintain Data Quickly and Accurately

You have a critical job and many people depend on you. Accurate tax data is crucial for managing the many facets of today's complex government offices. Pontem's Tax Administration system provides "smart" data entry, which translates into saving hours of your time and helps you avoid mistakes.

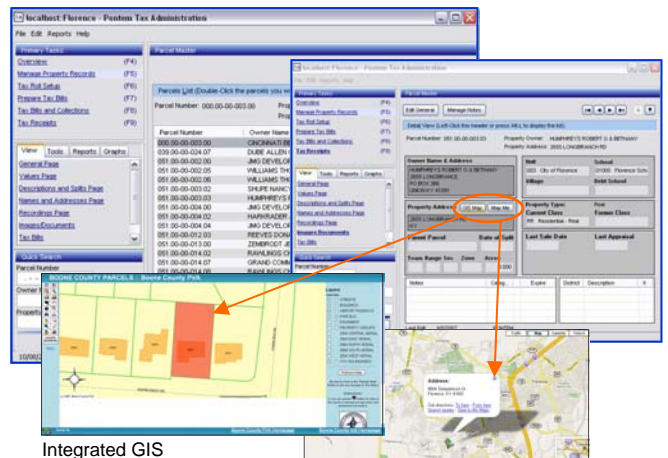

Pay List Screen:

Process one or many payments with Pontem's built in work flow that will walk you through the process from start to finish.

Manage Parcel Records:

Access parcel data from one easy to use screen

Integrated GIS

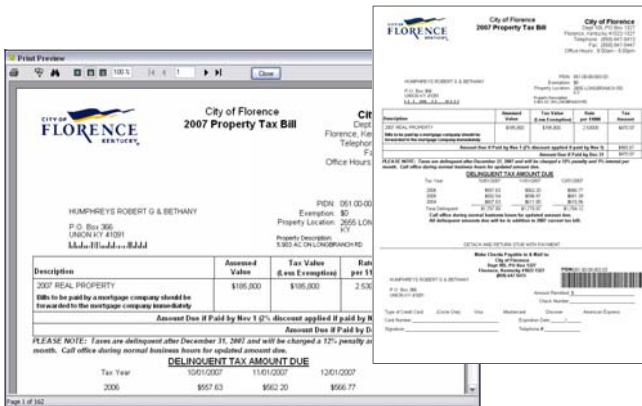

Map the property address on Google

Powerful and Easy to Use Reporting

With Pontem's Tax Administration program you can print or preview reports with the touch of a button. Choose from many standard reports which come with the product, or customize your own. By selecting your own search criteria, you can generate reports for current, as well as historical data. For total flexibility, you can publish in most formats, including Microsoft® Word, Excel, PDF, even HTML for publishing to your website.

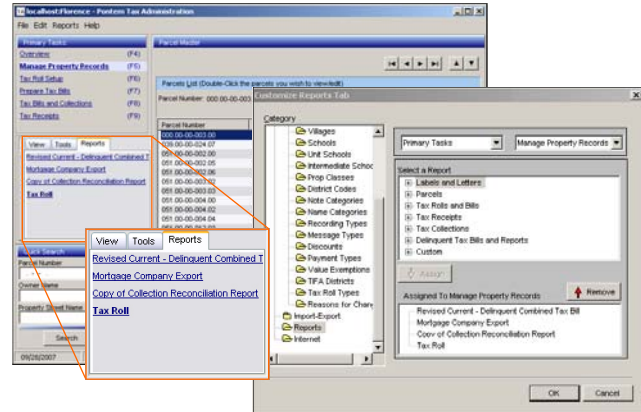

Report Print Preview:

Use the report preview feature to quickly answer questions as they come up. Tired of wasting paper printing unnecessary pages of a report? With Pontem you can simply select the pages you want to print.

Customizable Report Preferences:

Assign frequently used or customized reports as defaults on the easy to access 'Reports Tab'. Customized tax bills and tax receipts can be used by your whole organization once they are setup as system forms.

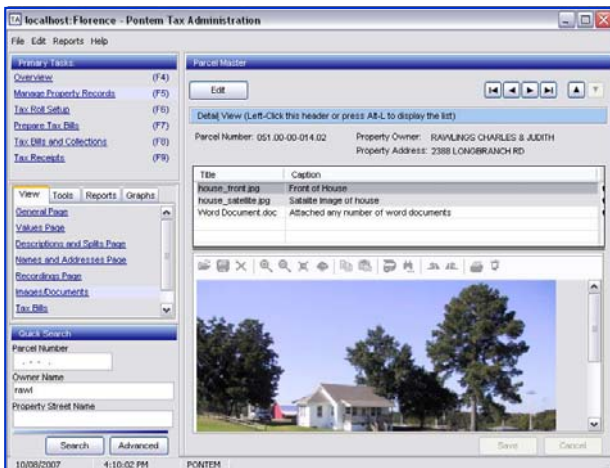

User Security/Rights Provide "Controlled" Access

If you have assistants that need to access the software, we have you covered. Pontem offers licensing allowing multiple users in the system at the same time, when the program is installed on your network. With Pontem's powerful security feature, you can assign "rights" to your users ranging from 'Read-Only' to 'Full-Administrative' access.

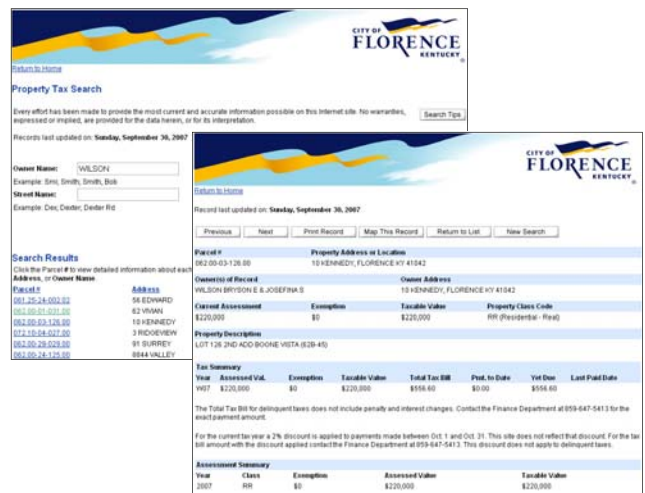

Imaging/Document Management Module

Simplify your life with less paperwork. Replace cumbersome files by maintaining vital tax parcel information electronically. There is no limit to the number of images or standard documents (i.e. Word®, Excel®, PDF, etc) you can associate with each parcel record.

Pontem Online Property Tax Search Service

Provide a great service for residents in your community, while reducing the number of phone calls you receive at the same time. Taxpayers, realtors and banks can easily go "Online" to find the information they are looking for.

Pontem offers you a complete solution. Call Today!
